THE PASSAGE DOCTRINE

Third Codification, Year of Continued Correction 49

The door has closed.

What lies beyond it does not return. To pull the light back through would be to unmake the passage itself - an act of cosmic desecration that Morthis will not forgive and that we are bound, by oath and by understanding, to prevent.

The twilight is not a wound. The twilight is what follows a completed passage. Restoring the sun would be necromancy on a cosmological scale: dragging a soul back from beyond the threshold. We do not do this. We do not permit this.

OPERATIONAL SUMMARY

Asset ELLAN VOSS: Secured. Observed. Essential.
Do not move her. She must be present. She must believe she has chosen to be present. The distinction matters.

Asset SUNRISE-4: Location confirmed. Continue observation.
Asset WATCHER-1: Deployed. Do not interfere with its work.

Threat assessment - active investigators: ELEVATED.
Small party. Unknown sponsorship. Dangerous in aggregate.
Do not engage in open streets. Cell integrity above all.
They will make mistakes. Wait for the mistakes.

The Unlit do not act without Priest-level authorization.
The Priests do not act without ██████ authorization.
This chain exists for a reason. Hold it.

THE INVOCATION

The door has closed. The passage is complete. We are the passage now.

On approach: Their symbol is an obsidian disc with an inward-facing crescent, worn inside clothing. Leave one visible where they watch. They will make contact. They respect precision and have no patience for manipulation - and a great deal of patience for everything else. They operate in cells. No central point of failure. They have been doing this for thirty years.
