

FRAGMENT II — NOTATION KEY (SECTION II OF III)

A single sheet of stiff paper. One side has a table of geometric symbols with letter correspondences, laid out in a precise grid – a meticulous, controlled hand. The other side has two rows of symbols followed by two short paragraphs of plain text. The paper is the same weight and size as another document you may have found in the Archive.

KEY (ONE SIDE):

$$\oplus = W \quad \otimes = A \quad \odot = C \quad \triangle = D \quad \nabla = F$$

▲=O ▼=U □=M ■=P ▪=V ►=Y

[Section III carries remaining symbols]

CIPHER (OTHER SIDE):

NOTES (BELOW CIPHER):

The vessel is not the container. The vessel is the carrier. The distinction is the mechanism.

The completion mechanism is not separate from the vessel. The vessel IS the mechanism. To separate them is to destroy both.
