

Therons Encoded Journal Entry – player handout (Scene 4 puzzle)

Players retrieved Theron's personal journal from the archive box in Session 2. Most entries are in plain language. One page – this one – is written entirely in Corven's private notation. They could not decode it before. With all three Notation Key Fragments, they can now.

Print and hand to players at the start of Scene 4.

[A single journal page. No date. Written entirely in Corven's private notation – the same symbol system as the Fragments.]
